

STUDENT INDUCTION PROGRAMME

New RGIMS students have various perspectives, backgrounds, and preparations. Many of them are unfamiliar with universities and colleges. Indeed, welcoming new students to higher education and preparing them for their roles is crucial.

Student Induction supports the transition of degree-level students into entrepreneurs. Thus, RGIMS takes this activity seriously. This curriculum goes beyond first-year orientation and second-year lateral entry.

The Student Induction Programme welcomes incoming students before courses begin. Induction begins with incumbents learning about RGIMS policies, processes, practises, culture, and values and forming mentor groups.
